

Up From the Grave [Bb]

[Default Arrangement]

Intro: Bb Gm Ab Eb x2

Verse 1

There's no story we'd rather be telling
But that God came Himself for His own
He declared "It is finished!" on Calvary
Bore the wrath we deserved all alone
There's no story so timely and lasting
But that Christ condescended to save
The will of the Father accomplished
Our path to redemption He paved

Prechorus

Buried, dead within the rock
In the calm before the wake
His heel has crushed the serpent's head
His victory was gained

Chorus

When he rose up from the grave
Defeating Satan, sin, and death as our forever "Amen"
Now we rise just the same
Our redemption is claimed, and the song of every saint
Is that He rose up from the grave

Verse 2

There's no story compared to the gospel
There's no truth that we should hold so dear
As Christ glorified by redeeming
The distant and drawing us near
